Grand Rapids, Feb. 14.—The Lincoln Club banquet Wednesday night was a brilliant success, with a galaxy of speakers, never equaled in Michigan political banquets. It was held in the Klingman furniture exposition building and more than 2,000 persons occupied seats at the table. The hall was elaborately decorated and as a compliment to Ambassador Jusserand, of France, French colors were mingled with the American.

The speakers were Ambassador Jusserand, Congressman George Edmund Foss, Secretary of War Taft, Governor Curtis Guild, Jr., of Massachusetts and John Barrett, director of the bureau of American republics at Washington.

Although all of the speakers were greeted with enthusiasm, it was Secretary Taft who received the greatest outburst of applause. His subject was "What Would Lincoln Do Today?"

HARDWICK TALKS OF TARIFF.

Georgian Also Touches on Trusts and President's Message.

Washington, Feb. 14.—The tariff, trusts and the president's message were discussed in the house by Mr. Hardwick, of Georgia. He first took up the tin plate industries and demonstrated from the reports of the British board of trade, issued in 1904, that the difference in the price of tin plate in Wales and New York amounted substantially to the cost of the transportation added to the duty during the years since 1890. Mr. Hardwick furnished British statistics showing that wages in the United States had increased at a slower rate from 1881 to 1900 than in any foreign country.

The democrats, he said, had been delighted with the president's crusade against monopolies, but he predicted the president would not accomplish anything until he reached the heart of the evil and got at the source of the monopolies.

Owing to the present high temperature and threatening heavy rains, the snow and ice in the waters of the Allegheny and the Youghiogheny rivers may melt and cause a flood.

All the small streams are rising slowly and in many places the water is beyond its banks.

It is expected that the rivers here will reach the danger point soon.

TWO MEN ASPHYXIATED.

Believed They Sacrificed Their Lives to Obtain Whisky.

Philadelphia, Feb. 14.—Martin Brady and John Bartlett were asphyxiated here Wednesday in what the police believe was an attempt to obtain enough money to buy whisky.

Two men were found lying in the cellar of Brady's home by a gas inspector.

Brady was found with a "quarter-in-the-slot" gas meter in his arms. It had been wrenched from its fastenings.

The police believe that the men tried to extract money with which to buy liquor from the meter and in so doing sacrificed their lives.

KILLING AT ELK PARK, N. C.

Prominent Lumber Man Shot by a Wealthy Merchant.

Knoxville, Tenn., Feb. 14.—A special to the Sentinel from Johnson City, Tenn., says:

A. H. Cline, a prominent lumber man of Bristol, was shot and instantly killed Wednesday night by Luke Banner, a wealthy merchant of Elk Park, N. C. The shooting occurred at Elk Park.

It is said that Cline, in company with Alex Richards, was passing Banner's store and Banner called to Cline. As he turned, it is said, Banner fired a shotgun, the load striking Cline and killing him instantly. Banner made his escape.

The killing is thought to have been the result of a difference over business matters between Cline and the Banner family last summer.

Prominent Odd Fellow Dies.

Albany, Ga., Feb. 14.—Frederick Gaegley, eighty-one years of age, died here Wednesday as the result of complications following the grip. He was a Pennsylvanian, but had lived in the south sixty years. His wife, whom he married fifty-seven years ago, survives him. WHIPPED MAN TO LOSE WIFE.

Mrs. Bailey Brings Suit for Divorce at Carnesville.

Carnesville, Ga., Feb. 14.—Canon looms up with another chapter to the whipping of Dr. Bailey. His wife has filed a petition for divorce in the Franklin superior court, Colonel J. C. Bond representing her, and the ground for divorce being cruel treatment.

It is alleged he would chastise her and that his treatment was very cruel.

It is alleged that Dr. Bailey has made matrimonial ventures prior to the present, which did not result happily.

There is also strong feeling against Dr. Bailey on the part of the friends of the postmaster of Canon. The postmaster and his friends allege that Dr. Bailey reported to the department that gross irregularities existed in the Canon office and that these charges were unfounded.

ROME MUNICIPAL RACE.

Captain Hiles Withdraws, Leaving Three in the Contest.

Rome, Ga., Feb. 14.—The municipal race in Rome daily assumes different and unexpected phases. Wednesday morning marked the withdrawal of Captain Thompson Hiles, who states that he is unwilling to enter a race where, on account of the number of candidates, it would be practically impossible for any one of them to receive a majority of votes cast. Mr. Denny comes out in a card and announces his platform and says he is in the race to stay until the last vote is counted. T. W. Lipscomb has a very strong backing, and is in the race to the finish. Dr. Wicker is still confident of election, and has a strong following. It is not probable that there will be any further withdrawals prior to the primary election on the 18th instant.

MAY DISBAND TROOPS.

Mississippi Legislature May Take Action as to Late Lynching.

Jackson, Miss., Feb. 14.—Because of the lynching of the negro Eli Pigot, at Brookhaven, Monday last, the Mississippi legislature will be called upon to decide whether or not to disband the state militia in times of peace.

Senator Harper, of Grenada, offered a resolution calling for this in the senate, specifying that it was in view of the Brookhaven lynching.

Pigot, charged with criminal assault, was taken from the custody of the military companies of Jackson at the town of Brookhaven and shot to death, his body being hanged to a telegraph pole.

He also claimed to have helped cut the three notch trail through this section when Jackson made his campaign against the Indians. The old negro had been blind since last summer.

Rumors Silly, Says Harriman.

New York, Feb. 14.—That such reports were silly was the only comment that E. H. Harriman would make when asked about the rumor which has been current in Wall street that the dividend on Union Pacific stock would be cut at the coming meeting. "I cannot be expected to forecast the action of the directors regarding dividends. These rumors, however, are silly. Times are dull, and people have nothing better to do than make up rumors."

Birmingham, Ala., Feb. 14.—State Mine Inspector Gray has just given out the official figures on the coal production in Alabama for the year 1907. The report shows that the total for the state for that year was 14,361,748 tons. The total for 1906 was 12,561,775, showing an increase for the year 1907 of 1,541,973 tons. Of the total for 1907 Jefferson county produced alone 7,573,740 tons or more than half the total.

TROOPS CALLED FOR

Needed to Preserve Order In the Alaska Mining Strike.

PRESIDENT ISSUES ORDER

Action Taken Upon Representation From the United States Court in Alaska to Attorney General That Federal Troops Were Needed.

Washington, Feb. 14.—By direction of the president, Acting Secrtary Oliver Thursday ordered a company of infantry from Fort Gibbon, in Alaska, to Fairbanks, in that territory, to preserve order during the mining strike in that section.

This action was taken upon representation from the United States district court in Alaska to the attorney general that the presence of federal troops was needed.

Attorney General Bonaparte promptly brought the matter to the attention of the president and by his instruction afterwards consulted with Acting Secretary Oliver, who through General Bell, chief of staff, forwarded the necessary orders for the movement of troops to the military commander at Fort Gibbon.

WATER MAIN BURST.

$3,000 Damage Done and Lives Were Endangered.

Atlanta, Feb. 14.—Lives were endangered and property damaged by the bursting of a water main running to the hydraulic elevator at the Western Electric company's plant, West End, Wednesday morning. The damage done was $3,000.

The elevator used by the electric company is lifted by means of water. A large main runs into the building, under the first floor. Without the slightest warning this pipe sprang a leak, causing both confusion and fright on the part of the employees. The machinery was stopped at once, and all of the elevators discontinued operation.

In spite of the fact that many precautions were taken the water managed to flow over the building, bearing away nearly everything in its path. The result was that the building itself was damaged to the extent of $3,000, but the stock suffered a very small loss.

APPEAL BY GOVERNMENT.

Another Attempt for Damage for Esparta-Magnolia Collision.

New Orleans, La., Feb. 14.—Another attempt has been made by the government to obtain damages for the celebrated Esparta-Magnolia collision two years ago, in which President Roosevelt was placed in great peril. The president was on the Magnolia, a small government boat, bound for the mouth of the Mississippi river, when the steamer Esparta ran down and almost sank the Magnolia.

Recently the United States district court denied the government's suit for libel for the Magnolia's damages and an appeal was argued before the circuit court of appeals.

Tillman Offers Amendment.

Washington, Feb. 14.—An amendment to the Aldrich currency bill was introduced by Senator Tillman. It provides that the emergency currency to be issued under the terms of this measure shall not be withdrawn from circulation more rapidly than at the rate of $9,000,000 a month, which is in accordance wwith the present law. The pending bill removes this limitation. Mr. Tillman objected to the banks being permitted to inflate the currency by issuing $500,000,000 in bank notes and then contract it at will.

Fatal Gambling Quarrel.

West Point, Ga., Feb. 14.—In the blacksmith shop on the plantation of Paul Potts, near Gabbettville, two negroes, Dave Strozier and Monroe Moss, were killed on account of a quarrel arising over drinking and gambling. Strozier shot Monroe Moss and in turn was shot by Lawrence Moss.

F. D. WARNER IS MUCH ENCOURAGED

President of F. F. & V. G. Association Back From Washington.

IMPORTANT CASE WAS ARGUED

Before the Interstate Commission Regarding Excessive Charges on Produce from Points in Florida—Hearing to be Continued in Jacksonville.

Frank D. Warner, president of the Florida Fruit and Vegetable Growers' Protective Association, with other officers and members of the association, appeared before the Interstate Commission in Washington on the 6th inst. in the matter of alleged exorbitant rates on perishable shipments from points in Florida to the markets of the East and North, and President Warner, who is again at home, expressed himself as feeling encouraged over the outlook of the situation, feeling that the relief sought for will be eventually gained.

At this hearing it was impossible to examine all witnesses, with the result that the Interstate Commission postponed further hearing in the premises until March 18, when the hearing will be resumed in Jacksonville.

The contentions of the Florida Fruit and Vegetable Growers' Protective Association are familiar to the people of the State, having been published several times before. It might be well to say, however, that the purposes of this organization, which was formed about a year ago, are for the purpose of securing and having maintained just and equitable transportation rates from all points in Florida of perishable products, in comparison with rates from other sections of the country, and in several instances cases of extremely unreasonable and exorbitant charges in comparison with the rate from points in California, etc., were cited.

The final outcome of this hearing will be awaited with considerable interest, but those who have the case in hand feel confident of the good which will result.

HONOR TO E. E. VOYLE.

Was Elected Vice-President of Independent Telephone Association.

E. E. Voyle and son, Chas. C. Voyle, have returned from Tampa, where they went to attend a meeting the purpose of which was to form an Independent Telephone Association.

This meeting, as was anticipated, was well attended from every section of the State, every independent telephone company being represented. The organization was perfected, and the following officers were elected for the coming year:

W. G. Vereen, Tampa, president; E. E. Voyle, Gainesville, vice-president; George McKean, Ocola, secretary and treasurer.

Mr. Voyle stated that a great deal of interest was manifested in the meeting, and a good membership was secured, hence the new association starts out with the most encouraging prospects.

While in Tampa Mr. Voyle naturally attended the State Fair, and was well pleased with what he saw. He stated that the Alachua county exhibit is especially fine when it comes to agriculture, and that this county has virtually the only first-class cotton exhibit on the grounds. The county exhibit is in charge of Major John W. Tench.

Manager Callison of Spring Park Farm is at the Fair with his exhibit of fine Herefords, Jerseys, etc., and naturally this is considered the best live stock exhibit on the grounds. Manager Callison has always captured the bulk of the prizes, and judging from what Mr. Voyle could see and hear, the Spring Park Farm will stand a good show this year.

MR. HULME INJURED.

Well-Known and Popular Traveling Man Victim of Serious Mishap.

The Ocala Daily Banner of the 13th inst. contains the following information which will be read with interest, as Mr. Hulme lives at Hawthorn, and has many friends in this section:

"Mr. Y. M. Hulme of Hawthorn, who travels for the C. B. Van Deman Company of Jacksonville, was the victim of a furious runaway at Campville Wednesday. Mr. Hulme was thrown from the vehicle, the wheels passing over his body. Fortunately he escaped any serious injury. After the accident Mr. Hulme came to Ocala on the Seaboard and is now at the Ocala House, where he is receiving medical attention."

WOMAN'S POWER

The healthy woman; strong mentally and physically, whose ambition and magnetic influence urge men to deeds of grandeur and heroism; such women are all-powerful.

Weak, sick and ailing women have little ambition; their own troubles occupy all their thoughts. They dwell upon their pains, suffer from nervousness and headaches; often are extremely melancholy, and avoid society. For thirty years

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Mrs. Louise Jung, of 332 Chestnut St., Detroit, Mich., writes:

Mrs. Emma Wheaton, of Vienna, W. Va., writes to Mrs. Pinkham:

"I was a walking shadow. My husband insisted upon my writing to you and trying Lydia E. Pinkham's Vegetable Compound, which I did. It relieved all my pains and misery, and made of me a very different woman."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, irregularities, periodic pains, backache, that bearing-down feeling, dizziness, or nervous prostration. Why don't you try it?

An "OLE HOSS" SALE.

Southern Express Company Will Sell All Unclaimed Freight Today.

In compliance with the notice which has appeared in The Sun for the past thirty days, the Southern Express Company in this city will conduct a sale of unclaimed freight, familiarly known as an "ole hoss" sale, today.

There is accumulated a large number of packages, and these will be knocked down to the highest bidder—who may get "stuck," or may get a bargain. As a matter of course, the purchaser may take the risk.

This sale, which will begin at 10 o'clock, will no doubt be largely attended, as the annual sales of this character usually are. While a great many go for the purpose of making purchases and others "for the fun of the thing," as a rule these sales terminate with profit to many and a lot of pleasure to others, as it is like buying a pig in a bag.

There are a large number of packages offered at this sale, and the chances are that it will be largely attended.

The sale will be conducted under the supervision of Route Agent Rhodes and Local Agent King. Be on hand promptly if you want to see the fun.

Mr. and Mrs. E. W. Berger Entertain.

The members of the State Experiment Station staff and their friends were delightfully entertained last Saturday evening by Dr. and Mrs. E. W. Berger at their home, "The Stone House," on West Liberty street.

Each visitor had received a unique invitation consisting of seven questions and answers, that assured them a jolly time.

The rooms were very prettily and artistically decorated. On the walls and curtains were hearts of various sizes and colors. From the center of each chandelier extended long streams of red tissue paper dotted with hearts. Under the chandeliers was a dainty little postoffice from which Miss Effie Rolfs, as postmistress, with Misses Clarissa Hall and Mary Blair, as assistants, delivered Valentines to all.

The events of the evening were numerous contests, in which twelve prizes were won. Refreshments, consisting of ice cream and heart-shaped cake, were served by the little Misses dressed in Valentine costumes.

Reluctantly did the guests regret when compelled them return to their homes, having joined in voting the evening a success.

B. Y. P. U. Party.

The Baptist Young Peoples' Union gave a delightful Valentine party at the home of Rev. and Mrs. S. B. Rogers, on Pine avenue, last night, which was well attended by members of the union. VENETIAN CARD PARTY.

Mrs. Thornton Stringfellow Entertained Delightfully Thursday.

One of the most beautiful card parties given this season in Gainesville was that of Mrs. Thornton Stringfellow, Thursday afternoon, in honor of Miss Marguerite Stringfellow and her house guests, Miss Emma Evans of Lafayette, Ala., and Miss Elise Walker of Governor's Island, New York.

The attractive house was elaborately and artistically decorated, quantities of red japonicas being used in the two large drawing-rooms, the dining-room being beautifully decorated in yellow jasmine, while handsome palms and ferns added greatly to the effect.

The dainty and delicious refreshments—turkey salad, candied cherries, sandwiches, and fruit punch—carried out the Italian color scheme. The score cards, exquisite Venetian scenes, hand-colored, were especially noteworthy, having been brought over from Europe by the hostess last summer.

Mrs. John Chesnut was the winner of the first prize for the married ladies. Mrs. R. C. Cooley, of Jacksonville, won the second. Miss Ida Burkhim was the fortunate winner of the first prize for the young ladies, and Miss Dorothy Wagner secured the second. The guests of honor each received similar prizes, framed scenes from Venice, and all cut for the consolation, Mrs. Chapman being the successful winner.

The afternoon was greatly enjoyed by all and the delightful entertainment will long be an agreeable memory.

ALDERMAN WEBSTER RESIGNS.

Gives as Reason Pressing Business in His Regular Duties.

Alderman I. E. Webster, who was elected to represent the North Gainesville section as an alderman on the City Council, has tendered his resignation, and the same is now in the hands of Clerk J. M. Dell.

Col. Webster, who has been quite prominent in politics, and is a most progressive citizen and property owner, was elected in 1907 for a term of two years, receiving a most complimentary vote. He has served his constituents and his city well, but sets up as a reason for his resignation, after having served a year, that his business duties prevent him from giving the office the time and attention it required.

Inasmuch as another election will be held in April, it is probable that Alderman Webster's resignation will not be accepted until his successor may have been selected in regular order.

Col. Webster has made a faithful and efficient official, and it is regretted that he will be compelled to relinquish his municipal duties on account of other business.

Had a Fine Meeting.

Grand Chancellor Louis C. Lynch and Grand Representative Robt. E. Davis have returned from Alachua, where, on Thursday evening, the former made an official visit to the Alachua Lodge, Knights of Pythias.

This meeting was well attended, and Chancellor Commander Lynch complimented the lodge very highly. He made an excellent talk along the lines of the good of the order, as did Col. Davis, Chancellor Commander W. H. Seeley of Alachua Lodge, and other members of the lodge.

In all, the evening was spent in a most enjoyable and profitable manner mutually, and everybody felt better for "turning out."

Chancellor Commander Lynch stated Friday upon his return that Alachua has one of the most enthusiastic and most progressive lodges of any town in the State of its size.

Mr. Littledale Was Here.

William Littledale of Hawthorn, the clever and successful traveling salesman for the E. J. Smith Candy Company, manufacturing confectioners, was in the city Friday. He was en route home, where he will spend Sunday with his family. Mr. Littledale declares that the financial "panic" has had no effect on his trade—in fact he is enjoying a better business than at the same time last year. "I do not believe my friends, the merchants, in my territory, have yet heard of any panic," he good-naturedly declared, "and I hope they won't if it's going to scare them off from buying."

THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of

The Well Informed of the World.

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

A Pleasant Occasion.

The senior Epworth League of the First Methodist church enjoyed a pleasant evening at the home of Mr. and Mrs. L. J. Clyatt Friday evening, the occasion being a Valentine party. Quite a number of the leaguers and their friends were present, and the evening was passed in a most enjoyable manner.

Many people in this city, who would never have met but for the classified ads., have become good business friends. "Want ad. acquaintances" are usually profitable.

It may be an "unseasonable" time to move—but sometimes the greatest "bargains and booms" in houses or apartments are to be found "out of season." Watch the ads.

In St. Louis a jury acquitted a citizen who killed a burglar and then bought him a gold medal. This is a pleasing reversal of the rule for the burglar to kill the citizen and then buy up the jury.

With the steadily increasing demand for American-made ice cream en route to and from the Orient, an industry has sprung up in California which furnishes to nearly all the ships of the trans-Pacific lines ice cream in large blocks, sufficient in quantity and frozen solidity to last the entire trip to Hong Kong and back to San Francisco again. To cater to this demand a plant has been constructed in which the ice cream is frozen without the aid of ice applied in the usual way. The substitute is cold brine, which circulates around the freezing tanks after coming in contact with ammonia pipes. By this process ice cream can be turned out at the rate of a batch every eight minutes. The capacity of the plant is 1,000 gallons per day.—December Popular Mechanics.

Coincident with the transfer of household industries outside the home, our methods of living are undergoing a slow but steady revolution. The housewife of today is not so busy a personage as was her grandmother, says The Delineator for January. The food and clothing that the housemother once made herself are now largely produced in the factories. Every article of wearing apparel may be had from a department store bargain counter. Bakeries turn out bread at fifty thousand loaves to the baking. Soups that our mothers spent a day in the making now arrive all ready to add hot water and serve. Our bacon is dings and desserts are minute-made, before they reach the kitchen. Puddingsa nd desserts are minute-made, and pickles and preserves come in fifty-seven varieties, bottled and beautiful.

NEW WOODS COMING INTO USE.

The scientific study of the merits of many species of trees against the use of which there has been a prejudice for one reason or another is one of the most important phases of the forest work of the Government, from an economic standpoint, and the investigations which have already been made have provided the lumber industry with much valuable information.

The latest discoveries of valuable qualities in a former neglected species resulted after an investigation of the tupelo gum which finds its home in the Southern swamps. Experts say that the study has brought out as important data as the studies made on the lobblolly pine, another species which was neglected for many years, but which is now put to valuable use for many purposes.

Tupelo, two years ago, at the time the study was begun, was little known and seldom used even in the sections of the country where it is plentiful. In the logging off of cypress in the Gulf States, where tupelo is found in large quantities, the trees were entirely disregarded. It was found that the prejudice then existing against the wood was caused by a lack of knowledge of its properties and lack of care in handling the material. The investigations have been carried on by the United States Forest Service and have proved the value of the wood for a number of uses. The result of these studies, removed, very largely, the existing prejudices against this gum, and in a short time the demand for tupelo rapidly increased.

This wood is now widely used, not only in the State where it grows but also in different sections of the country, in the manufacture of wooden pumps, sounding boards for violins and organs, mantles, and interior finishing, such as moulding, door and window frames and door jams. It is manufactured also into all kinds of lumber, including a good grade of edge grain flooring. Tupelo gum, in the form of flooring, was recently found competing successfully with Douglass fir in the Los Angeles market, even though bearing a freight rate of 85 cents per hundred weight from its source of production in Louisiana.

This is only one example of the studies carried on by the Government for the purpose of creating markets and establishing uses for the kinds of wood whose properties are not understood. The reason for making these studies is that by finding substitutes for woods now in use which have grown scarce in consequence of an excessive demand, the timber supply of the country is in effect increased, the most economical use of wood is promoted, and the evils of a general shortage in wood supply are to that degree lessened.

NOTES FROM WASHINGTON.

Hon. J. Thos. Heflin was one of the distinguished Democrats who attended the banquet given by the Democratic League of Delaware at which Hon. William Jennings Bryan was the guest of honor. This noteworthy occasion was held at Wilmington. While the affair was primarily planned as a testimonial to the Nebraska Democratic chieftain, it was also the annual banquet of the league. Mr. Heflin, who is remarkably well known throughout the entire country, some time previous to the affair was tendered the office of honorary vice-president of the league, which he accepted. He was then urged to come to Wilmington with Mr. Bryan and allow the manager to place his name on the program for an address to be made on this august occasion. Echoes of this eloquent address which reached Washington was heartily indorsed by leading statesmen at the National Capital. In the course of his remarks Mr. Heflin in referring to Mr. Bryan asserted that at the present time there was no opposition to him as the Democratic nominee for the Presidency, save only the syndicate newspapers, and that Mr. Bryan is stronger with the people today than he has ever been.

In a speech of recent date Mr. Fulton, a Congressman from Oklahoma, undertook to poke fun at the expense of Arkansas. The chairman of the committee of the whole House recognized Mr. Fulton as the "Gentleman from Arkansas." The Oklahoma Congressman began his address with the statement that many hard things had been said about him, but about the ugliest was to accuse him of being from Arkansas. When he had finished Congressman Jos. T. Robinson of Arkansas addressed the House in part as follows: "The chairman made the singular mistake in recognizing the gentleman from Oklahoma as 'the Gentleman from Arkansas.' Thereupon the gentleman from Oklahoma said he had many vicious things said about him since he had been on earth, but the worst thing ever said about him was that he was from Arkansas. Mr. Chairman, since I became a member of this body I have been gratified at the sense of friendship that exists among the members from different parts of this country. This is the first time I have ever heard uttered on the floor of this House a sentiment that would intentionally belittle any State in this Union. The gentleman spoke to you about how great Oklahoma was, but did not tell you that Arkansas sent more citizens into Oklahoma than any other State in the Union. There are two kinds of jokes, one that everybody enjoys, and the other nobody except the gentleman who perpetrates it. While I am a member of this House a reflection of that sort cannot be made upon my State and my people without my rising in my seat to resent it in proper parliamentary language. I am not angry with the gentleman from Oklahoma, but I want to say to him in reply that about the worst thing ever said about Arkansas was that the 'Gentleman from Oklahoma' came from Arkansas."

Thousands Have Kidney Trouble and Never Suspect It.

Prevalency of Kidney Disease.

Most people do not realize the alarming increase and remarkable prevalency of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient and physicians, *who content themselves with doctoring the effects*, while the *original disease* undermines the system.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

SHORT STATE ITEMS

Work on the jetties at Miami is progressing nicely. As soon as the work on them is completed the channel will be opened up to a depth of eighteen feet.

J. R. Moore, a successful farmer of Middleburg, has a large turnip on exhibit which weighs nine pounds with a circumference of thirty inches. He shipped it to Jacksonville to the Florida Mid-Winter Exposition.

The bodies of seventeen soldiers who died at Miami during the Spanish-American War will be sent to St. Augustine for interment in the National cemetery. Two monuments will be erected in the cemetery over their bodies.

While Fred Gleason, a white employe of the Seaboard Air Line railroad, was working on a coupling of a car attached to the Sarasota-branch train in the Seaboard yards in Tampa, the train was backed down on him and his head so badly crushed as to cause almost instant death.

The Western Union Telegraph Company has decided to install an up-to-date device in Pensacola in the placing of all wires underground. Such a step insures much better protection to the wires, and cuts the cost of general repair considerably as a result. A force of men have been detailed to do the work.

While Miss Miller, who lives in the O. F. Fish house on New York avenue, was boiling some water in an enclosed pot on the cook stove, Tuesday, the pot exploded, burning her painfully though not seriously. The water was thrown by the explosion into her face. Fortunately, she wore glasses, which saved her eyes.—DeLand News.

H. Harding, a photographer of Pensacola who was supposed to be a white man but later discovered to be a Louisiana negro, has left the city. The negro during his two years' stay in that town, was never seen with his race but was continually on the street with white men and ladies. It is reported that he will receive a warm reception if he ever returns to Pensacola.

Galloway—which is five miles from Lakeland—bears the distinction of having shipped the first strawberries from Florida every year for ten years past. That section seems to be especially favored for this industry, as no matter what kind of a season comes, a total failure has never been experienced. This year there is a larger acreage than usual, and we congratulate the growers out there on their fine prospects.—Lakeland News.

The Griffing Company of Macclenny, Florida, have something like 800 acres set out to peaches at Komoko, Richland and Griffing. Prospects up to date, so Mr. Griffing reports, are the most encouraging in the history of the industry in Florida. The trees so far are perfectly dormant, the weather in Jaunary being just cold enough to keep them from pushing forward permanently and not too cold to do them any harm. It is not likely that February will bring weather cold enough to do them any injury, and Mr. Griffing confidently looks forward to a crop of from 60 to 70 cars from his own concern's orchard. The movement will commence about the middle of May, the first variety to go forward being the Jewell.—Fruitman's Grower.

A Woman's Back

Has many aches and pains caused by weaknesses and falling, or other displacement, of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness.

If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cures. It is the most potent invigorating tonic and strengthening nervine known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or habit-forming drugs. Its ingredients are all printed on the bottle-wrapper and attested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills.

You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy OF KNOWN COMPOSITION, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest *of his* and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for.

Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by old Dr. Pierce over forty years ago, much imitated but never equaled. Little sugar-coated granules—easy to take as candy.

FIVE PERSONS TORN TO PIECES.

By Explosion of Mixer in a Starch Factory—Fire Follows.

Providence, R. I., Feb. 14—Five persons are believed to have been killed by the explosion of a mixer in the starch factory of C. S. Tanner on Tuesday afternoon. Three other persons were injured. The building was wrecked by the explosion and fire following completely wrecked the plant.

The dead:

Richard Gomez, John Dauti, Tony —— and Mike ——.

All these were workmen. Another man, A. L. Chase, who was in a chandlery store, which occupied a corner of the building, is supposed to be buried in the ruins.

The explosion is believed to have been due from a spark from defective electric wiring, igniting the starch mixer prematurely.

Grand Jury Indicts Three.

Bowden, of Flat Rocks, were indicted Wednesday by the Muscogee county grand jury on the charge of forging and circulating counterfeit Columbus Clearing House certificates. It is understood that the counterfeit certificates were made in Atlanta and that the paraphernalia has been captured.

Made Rich Haul.

Mexico City, Feb. 14.—Four American pickpockets robbed Paymaster Mariano Urdanivia of the Zepadores battalion of $5,400 as he was leaving the National bank with the money to pay the troops. The theft was witnessed by a detective, who caught two of the men, and recovered all but $100 of the cash. The Americans gave fictitious names.

Whiskey of Merit

THAT is the only kind we ever distilled and sold. That is why our whiskies sell over and over to the customer who was satisfied with the first order---and continues so---that is why we enjoy the confidence of thousands.

Whiskey is either pure or something else. We select all the grain carefully; use only pure water; age to full maturity in our own warehouses, and insist that our whiskies reach the customer in original packages. This protects us--protects the customer--safeguards our goods from invidious adulterations by middlemen.

Our whiskies have no equal for use in the sick room, being wholesome and tonicy to weak stomachs; they are the best to serve your friends, they will appreciate their purity and enjoy their rich mellow flavor. All the Gold IN GEORGIA Could not Buy-

Roding, Ga. August 27, 1906.
Messrs. E. C. DeWITT & Co.,
Chicago, Ills.

Gentlemen:—
In 1897 I had a disease of the stomach and bowels. Some physicians told me it was Dyspepsia, some Consumption of the Lungs, others said consumption of the Bowels. One physician said I would not live until Spring, and for four long years I suffered on a little boiled rice, some biscuits, dreaded pneumonia and Dyspepsia remedies that Needed the mother. I could not digest anything I ate, and in the Spring 1902 I picked up one of your Almanacs as a poor dyspeptic wreck will grasp at anything, and that Almanac happened to be my life saver. I bought a fifty cent bottle of KODOL DYSPEPSIA CURE and the benefit I received from that bottle ALL THE GOLD IN GEORGIA COULD NOT BUY. I kept on taking it and in two months I went back to my work, as a machinist, and in three months I was well and hearty. I still use a little occasionally as I find it a fine blood purifier and a good tonic.

May you live long and prosper.
Yours very truly,
C. E. CORNELL.

CAPITAL CONSPIRACY CASE.

Harrisburg, Pa., Feb. 14—The trial of the state capitol conspiracy cases which began here two weeks ago was interrupted Thursday by illness in the family of Charles H Bergner, of counsel for the defense, court adjourning until Monday morning.

Before adjournment was taken, counsel for former State Treasurer Mathues addressed the jury, outlining Mr. Mathues' defense. He said the state had failed to prove conspiracy on the part of Mathues and that whatever irregularities were found in the furnishing of the big building could not be put on the shoulders of Mr. Mathues, as he relied entirely upon the certifications of Joseph M. Huston, the architect, that everything was done in accordance with the contracts.

REFUND OF COTTON TAXES.

Southern Representatives to Make Vigorous Fight in Congress.

Washington, D. C., Feb. 14.—The southern members of congress are going to make a determined effort to fight through the present session a bill providing for the refunding of the $68,000,000 of cotton taxes paid during the years from 1863 to 1868.

Wednesday a meeting was held, attended by one representative in congress from each of the eleven southern states affected by this bill, and a permanent organization was formed. Later eleven southern senators will be urged to join the special committee, and work in a systematic and determined way for the passage of the bill.

It is the purpose of the movers to have congress appropriate the money outright to pay to all holders of cotton tax receipts. There will be no need for the employment of lawyers or lobbyists to push individual claims or any necessity for a reference of claims to the court of claims.

The state legislatures throughout the south will be asked to adopt resolutions memorializing congress to pass the bill. Georgia has already taken this step.

BUCKET SHOPS BARRED.

Mississippi Senate and House Pass a Bill Suppressing Institutions.

Jackson, Miss., Feb. 14.—What is known as the Beddie anti-bucket shop bill passed the senate Tuesday by a practically unanimous vote. It had previously passed the house and now only awaits the signature of the governor to become a law. This bill is sweeping in its provisions and provides for the immediate suppression of the institutions. The committee had recommended a substitute for the bill which contained a provision allowing persons, members of a regularly constituted exchange, to operate such places, provided its business contemplated the actual delivery of commodities dealt in, but this was killed and the original bill passed.

The only amendment to the original bill adopted provided that this act shall not be construed so as to render unlawful the conduct of a commercial exchange for the bona fide purpose of receiving by wire and posting of market quotations, provided no purchase or sales for future delivery on margins are permitted.

AN ILL FATED SHIP.

Mystery and Tragedy That Encompassed the Great Eastern.

There was a mystery about that ill fated ship. Nothing went right with her. She stuck at the launch, and it cost an extra $350,000 over and above the sum set aside for the purpose to get her into the water. On her trial trip her boilers burst, killing some of the stokers. Then she ran aground and carried on so outrageously that her crew thought her surely bewitched. She had started badly. While she was building a pay clerk sent by one of the contractors with $6,500 in wages for the men disappeared. It was not unnaturally assumed that he had bolted with the money. His wife and family were left unprovided for, with the stigma of his supposed crime upon them.

Thirty years after her launch the Great Eastern went into the cemetery at Birkenhead to be broken up. While she was being taken to pieces the ship breakers discovered between her inner and outer casings of steel the skeleton of a man. Papers which had fallen from his clothes enabled his identity to be traced. It was the skeleton of the pay clerk who thirty years before had disappeared. There was no money; that was never recovered.

The supposition is that the poor fellow on going on to the ship was pounced upon by workmen who knew that he had the money with him; that they stunned him and, having a small place in the side of the vessel to complete, crammed his body in and built him up in it. No reward would have induced a sailor to sail in that vessel had he known of the terrible secret sealed up in her walls.—Chicago News.

The Effect on the Nerves of Gambling.

How can a man do his daily work quietly, which represents perhaps only the earning of a few shillings, when his anxious other neurotic self is wondering how a horse he has never seen, ridden by a jockey he has only heard of, in a race he has only read about, is faring as to money ostensibly his, which he cannot afford to lose because he has not perhaps got it if he should have to pay? Is such an existence likely to add to the race value of our stock of fleeting patriotism?—Fry's Magazine.
